

職員網上學習

有關安全意識及知識

Online staff training on safety awareness and knowledge

本會培訓部自 2020 年初起受到新型冠狀病毒病疫情和社交距離措施所影響，讓不少實體面授課程被迫延期或取消。有見及此，培訓部推出多項實時網上教室或混合上課模式的課程，在減少職員社交接觸的同時，亦能繼續為他們提供不同的培訓課程。

為讓職員能更快捷和便利地汲取知識，培訓部將推行網上學習平台，並與各領域的專責員工和知識管理主任合作，按服務需要為不同專業範疇的職員製作網上學習課程，當中包括職業安全與健康、照顧技巧等基礎且實用的工作知識。網上平台亦可以讓職員隨時重溫課程內容，並設有網上測試以確保職員已掌握課堂內的知識和技巧；而服務經理亦可隨時檢視職員的學習進度及紀錄。

在未來日子，培訓部將繼續配合會方的發展策略、服務營運和職員發展的需要，提供不同的學習機會，讓職員和扶康會繼續攜手向前，提升服務質素。

Since early 2020, a lot of face-to-face training sessions offered by the Society's Training Department have to be postponed or cancelled due to the COVID-19 pandemic and social distancing measures. In response to the evolving changes, the Training Department arranged classes which made use of Online Live Classroom or Hybrid Learning, so that training courses can continue to take place while social contact between staff is minimized.

The Training Department is going to introduce an E-learning platform which would enable staff to learn in a quick and convenient way. The Department will also collaborate with Subject Matter Experts and Knowledge Management Officer to tailor online learning courses for staff according to the service needs. These courses include basic and practical work knowledge, such as occupational safety and health, and care skills. The E-learning platform also allows staff to review course materials anytime. Online assessments which ensure learning result are provided as well. Meanwhile, service managers can assess learning progress and records of staff anytime.

In the near future, the Training Department will continue to work in accordance with the Society's strategic plan and staff development needs to provide diverse learning opportunities with an aim to improve service quality.
