

### 環保活動及環保產品工作坊

近年，環境保護已成為社會關注的重要事務之一。扶康會一直心繫社區，積極響應環境保護，並不遺餘力地實行綠色生活。自2016年4月起，本會便推出環境保護政策及有關執行指引，期望能與各持份者共同締造綠色文化。為了讓各服務單位能有效地推行環保措施，本會同時推出有關環境保護的重要指標，讓各單位能參考此指標，以實踐環保生活為目標。

另一方面，本會為了深化各服務單位推行環保的情況及配合本年度的策略目標－「展藝共融發展」，舉辦環保產品製作活動，希望透過一連串的環保活動及比賽，提升服務使用者的展藝才能。不同的手作製品除了可以展示服務使用者的才能外，亦能推動環保及宣揚傷健共融的精神。

### Environment-Related Activities and Workshops on Environmentally-Friendly Products

Environmental protection has become one of the most discussed topics on society in recent years. Fu Hong Society always cares about the community and commits to environmental protection. We spare no efforts when it comes to adopting a green lifestyle. Since April 2016, our Society has introduced policies and relevant implementation guidelines regarding environmental protection, hoping to create a green lifestyle culture with all our stakeholders. In order for all service units to carry out the green practices effectively, our Society also launched important indicators related to environmental protection. Each service unit may make reference to the indicators and target to sustain a green lifestyle.

On the other hand, to intensify the act of each service unit in carrying out the green practices and to tie in with this year's strategic objective - "Arts with the Disabled - Enhance Inclusion", our Society has also organized activities that involve the creation of environmentally-friendly products. Through a series of environment-related activities and competitions, it is hoped that the service users' potential in arts can be developed. Not only can the handmade products display the talents of the service users, they can also advance the concept of environmental protection and foster social inclusion of persons with and without disabilities.
